Education

Shri Govindram Seksaria Institute of Technology & Science

Bachelor of Technology in Computer Science

Indore, Madhya Pradesh
Expected 2028

Projects

SlideMind - AI-Powered Presentation Builder
React.js, Google Gemini API, JSZip, FileSaver.js

View Project

- Designed and developed an AI-driven presentation generator that creates professional slide decks within minutes based on user-defined topic, audience, and tone.

- Integrated Google Gemini API to generate slide content and speaker notes using advanced natural language processing tailored for impactful storytelling.

- Enabled export to PPTX and PDF formats with support for saving/loading presentations and customizable design templates.

- Leveraged modern web technologies to simplify and accelerate presentation creation for business and educational use cases.

- Deployed the application on Netlify for global accessibility.

AI-Based Ticket Scalping Detection System
Python, Gradio, Pandas

View Project

- Built a multi-module AI system to detect and prevent ticket scalping by analyzing user behavior, IP patterns, transaction speed, and KYC verification data.

- Integrated modules for dynamic ticket pricing, resale compliance checks, and admin reporting to ensure fair access and pricing for real users.

- Developed a user-friendly Gradio interface for interactive demo deployment and use-case simulation.

- Deployed publicly on Hugging Face Spaces for testing and demonstration.

Certifications

- Generative AI By IBM
- Introduction to Artificial Intelligence By IBM
- Front End Development By IBM

Technical Skills

Languages and Frameworks: Javascript, Python, C, HTML, CSS, Flask

Developer Tools and Platforms: Git, Github, Hugging Face

Soft Skills: Leadership, Communication, Problem Solving, Innovation, Adaptability
